Pictures of the kittens are taken every two weeks and sent to those who are interested. This process takes time, as we all know how rambunctious any small animal can be, making picture time difficult and challenging. The kittens become aware of what is going on at an early age and become less corporative with photos. I am also an RN, who works night shifts, dividing my time between Casablanca Ragdolls, being a nurse and taking care of my family, along with other obligations. Please be considerate of this and refrain from requesting photos. I feel it is best to take photos of the kittens with proper lighting and when the time is available to ensure buyer's are getting a true depiction and representation of the kitten, instead of one that is blurry and a kitten in motion. However, time is mostly spent caring for the kittens which includes socializing them, cleaning up after them, teaching them to eat, how to use the litter box and how to scratch on a scratch post. I love keeping in contact with my cat families and enjoy receiving updates/pictures. I am always available for questions before, during and after the purchase of your kitten. I just ask that you are respectful of my time.

Please sign that you have read, understand and agree to the above terms. Thank you for purchasing a kitten from Casablanca Ragdolls.
